4. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose all the limitations recited in the independent claims 1 and 11. Specifically, the prior art of record fails to disclose a passivation film having an opening, which exposes a part of the electrode formed on a side of the semiconductor substrate where the electrode is formed; wherein the electrode has a first rim part facing a periphery of the semiconductor substrate and a second rim part facing a center region of the semiconductor substrate, and wherein the

resin layer is formed so as to overlap the second rim part, leaving out an area from the periphery of the semiconductor substrate to the first rim part of the electrode.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
